Dear Guest,

Thank you for choosing to participate in the trek to the Path of the Gods.

This is a group trek, created and organized by Local Guides Matteo Giordano (+39 320 2722599) and Paola Cioffi (+39 339 3747368).

The Path of the Gods is a trekking of medium difficulty, 8,6 Km long, that allows you to reach Positano in 5 hours starting from Bomerano of Agerola.

The first stretch (from Bomerano to Nocelle), 5,2 Km Long, is developed along an old path historically linking the main town to carry goods through donkies . This part is thus made of many up and down over stone staircase and therefore somehow challenging. The downhill will be 793 metres while the uphill will be 184 metres. Therefore this walk requires participants to be trained enough, suitable only for persons used to walk through mountain, equipped with trekking shoes and appropriate clothing. An hat is also required as well as at least 1 litre of water for each person since the walk is completely sunny with very few shadow spots. The meeting point is in Paolo Capasso square, close to the public fountain, where an hiking accompanier will wait for you.

If you need to contact one of them, call their number.

Once we will reach Nocelle, if you will be tired, you will have the choice to go to Positano centre by bus. If you will feel like you still have energy to spend, you can reach Positano going down through a stone staricase which goes 437 meter downhill.

Once in Positano city center, you will have the possibility to refresh going to the beach for a swim or to go around the city for a visit.

For your way back we advice you to get the boat (Travelmar).

Have a nice trek!
